TERMS AND CONDITIONS

PRICES. Prices in this list are F. O. B. our nurseries or forwarding station in Mobile. Five and 50 plants of the same variety and size are priced at the 10 and 100 rates respectively.

TERMS OF PAYMENT. Cash with order for immediate shipment. No packing charges. C. O. D. orders accepted with a 25% deposit of purchase amount.

Orders will be booked and reserved for future delivery when accompanied with a 25% deposit.

TRANSPORTATION. Please specify if shipment is to be made by parcel post, express, motor freight or railroad freight. For parcel post shipments be sure to remit amount sufficient to cover postage.

Our responsibility ceases upon delivery to forwarding companies and any claims for damages en-route are to be made upon them.

LIABILITY. We give no guarantee that our stock will live and grow; but we do guarantee our stock to be well rooted, well grown, true to name and properly packed for shipment.

Claims for shortages and errors must be made immediately upon receipt of shipment and we will gladly rectify our mistake, but in no instance will our liability be more than the purchase price.

REMARKS. Symbols in the size and price quotations in this list indicate: C—cutting grown; S—seedling; T—once transplanted; B&B—balled and burlapped; B.R.—bare rooted; G—graft.

Our digging and shipping season generally begins the latter part of October and extends until the latter part of March with the exception of potted plants which may be shipped at any time and Azalea liners which are shipped during April and May.

The available sizes of Camellia japonicas, Sasanquas, Azaleas and Magnolias are listed following the varietal descriptions; where no sizes are indicated all of the sizes quoted in the group prices are available.

We have in limited quantities and in miscellaneous sizes a number of items which we have not listed herein. We invite your inquiries and shall be glad to quote on any of this stock.

CAMELLIA JAPONICA

The *Camellia japonica* has long been acclaimed the "Aristocrat of the Southern Garden" and has in recent years gained much popularity in the floral trade. Blooming at a time when the garden is otherwise barren and its great range of colors and attractive forms make the *Camellia Japonica* one of the most sought after plants today.

Camellias grow in almost any soil, but well drained, good garden soil, a little acid in reaction, is more suitable. A semi-shady location is preferable, especially when the plants are young. Free blooming cannot be expected in complete shade.

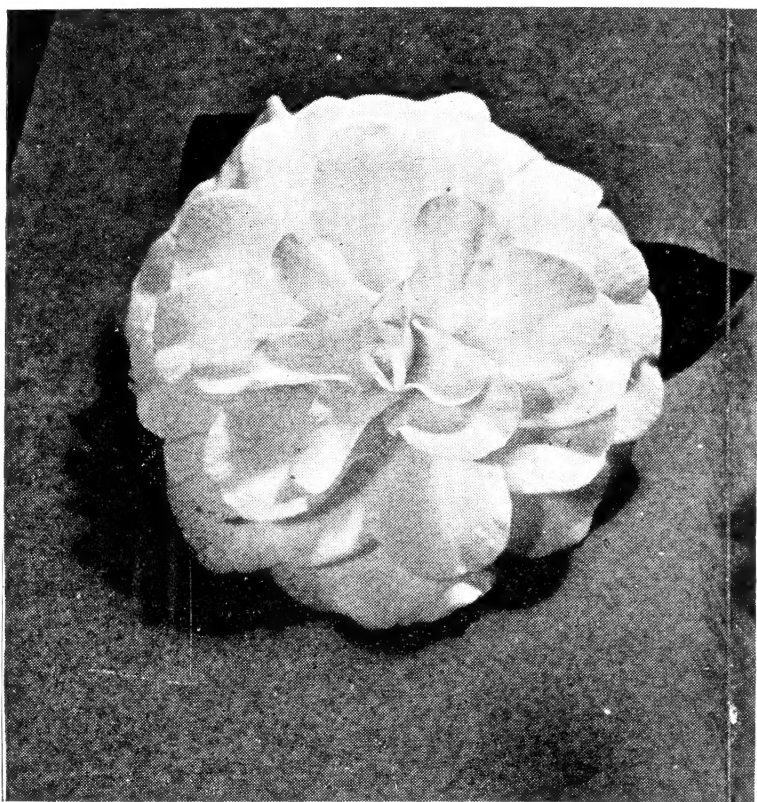

The root system of the *Camellia* is rather coarse and does not transplant as easily as the *Azalea*. Being a gross feeder it responds well to fertilization. At the time of planting if the soil is not fertile enough, use a mixture of one-half garden soil, one-fourth well-rotted stable manure and one-fourth of peat or leaf mold. Every winter or early spring apply well rotted manure, bone meal or cotton seed meal or similar commercial fertilizer. Mulching with half rotted leaves or peat is also beneficial. Attention should be given to watering as a humid atmosphere is preferred. Frequent syringing on the leaves helps a great deal during the dry summer months.

Proper pruning is also essential; water shoots, dead or injured branches and twigs too close together should be pruned with care. General pruning should be done during the month of February so as to have the least effect on the flower buds.

Red spider and various scales may attack Camellias, but these can be easily controlled. A good spray is Volck Jr. or Florida Volck used in the ratio of 1 to 50 parts of water with one to two teaspoonfuls of Black Leaf 40 to every gallon of solution. Avoid, if possible, spraying in the late Fall or during the Winter as a severe freeze causes much damage when an oil spray is used.

Overlook Varieties

During the past ten years we have introduced some 25 new varieties of *Camellia japonica* that were developed by our Mr. K. Sawada. These are outstanding varieties that have already won wide acclaim throughout the country. Many of these have been prize winners and have won wide-spread admiration in *Camellia* shows and exhibits during the past several years.

Mrs. K. Sawada

MRS. K. SAWADA (Plant Pat. 481) . . . Named in memory of the late Mrs. Sawada, who devoted much time and assisted in the development of some of these new varieties. Flower full double, gardenia type, imbricated, 3-3½ inches, consisting of 70 to 100 petals. Delicate pink shaded on white. Blooms heavily from February to March. As a cut flower has exceptional keeping qualities. Leaves small and of fine texture. Vigorous upright grower, compact with slender branches.

K. Sawada

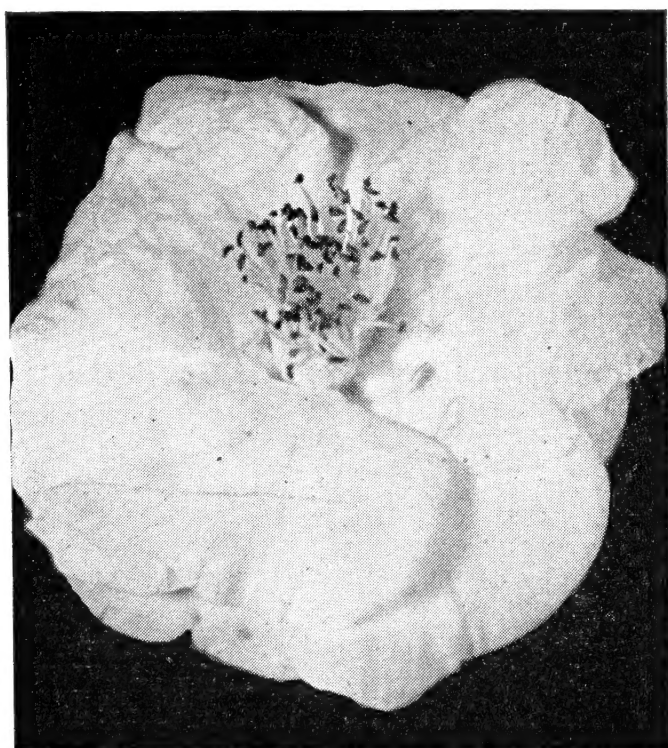

OVERLOOK VARIETIES (Continued)

K. SAWADA (Plant Pat. 431) . . . The outstanding Camellia developed at Overlook. Flower pure white, very double and fully imbricated. Usually 4-5 inches, 50 to 70 petals, the edges of which are rolled inwardly and are symmetrically overlapping each other. When fully opened sometimes shows a few small petalaets or yellow stamens in the center. Free bloomer from January to March. Leaves medium in size and thickness, dark green. Vigorous grower, semi-upright, very compact and symmetrical.

OVERLOOK VARIETIES (Continued)

semi-double with yellow stamens. Pure white, blooms very late. Leaves large, round and thick. Low and compact growth. 6-8 in., 8-12 in., 18-24 in., 18-24 in. G., 24-30 in. G.

VICTORY WHITE . . . Our seedling D. Semi-double peony type, measuring 4-5 inches in diameter. Pure white with numerous small petalets intermixed with yellow stamens at the center. Blooms heavily mid-season.

Victory White

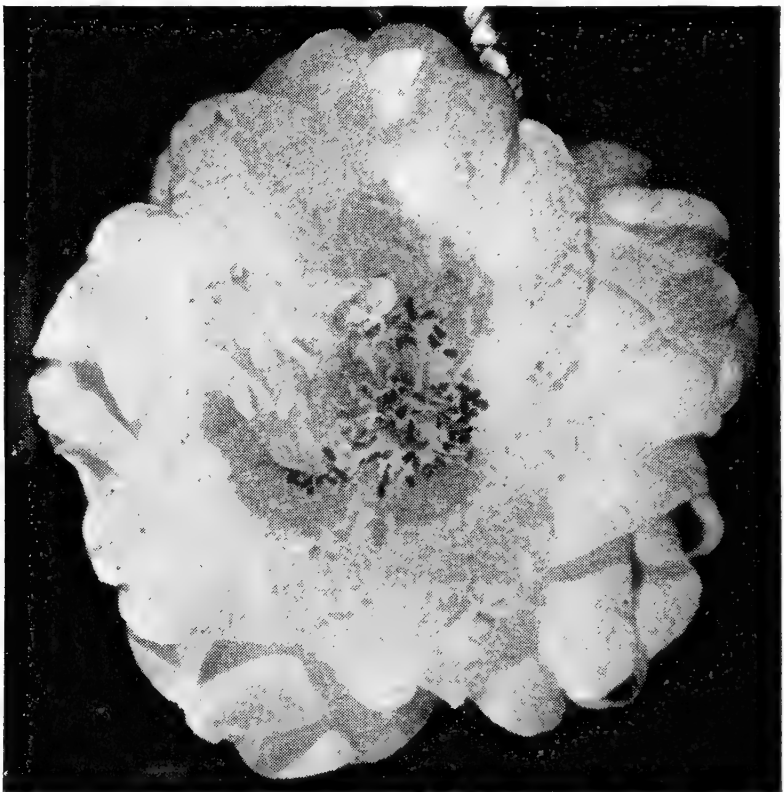

White Empress

OVERLOOK VARIETIES (Continued)

WHITE EMPRESS . . . Our seedling M. Very large semi-double, 5-6 inches. Flower pure white, but the mass of stamens gives it a yellowish glow in the center. Blooms early. Very popular variety and one that has won many prizes. 6-8 in. to 18-24 in., Med., 12-18 in. G., 18-24 in. G.

WHITE GIANT . . . Our seedling C. Large semi-double, pure white, often measuring over 6 inches. In shape, color and size closely resembles the Lotus, but is much better bloomer. Blooms mid-season. Leaves very large and extra dark, shiny green. Vigorous upright grower. 6-8 in., 8-12 in., 18-24 in. G., 24-30 in. G.

BLUSH HIBISCUS . . . Our seedling B. Very large single to semi-double. Resembles the giant Mallow

OVERLOOK VARIETIES (Continued)

Hibiscus. White with blush pink in the center. Vigorous grower with dark green leaves. 6-8 in. to 24-30 in. Spec.

Blush Hibiscus

IMURA . . . Our seedling #12. Semi-double, 5-6 inches in diameter consisting of 15 large petals of a snowy white porcelain texture and numerous yellow stamens in the center. Anthers are very large and shaped like an arrow or spear, very distinct from other varieties. Blooms mid-season. Leaves large, narrow and long, smooth and very shiny dark green. 6-8 in., 8-12 in., 12-18 in. G. to 30-36 in. G.

Imura

OVERLOOK VARIETIES (Continued)

LIBERTY BELL . . . Our seedling L. Pure white, semi-peony form measuring 4-5 inches. A prolific bloomer and it has one of the longest blooming periods. Semi-upright and vigorous grower. 6-8 in., 8-12 in., 18-24 in. Spec., 24-30 in. Spec., 30-36 in. G.

Liberty Bell

PINK SARA-SA . . . Sport of our seedling Sara-Sa. Salmon pink, semi-double. 6-8 in. to 24-30 in. Spec.

Red Hibiscus

OVERLOOK VARIETIES (Continued)

RED HIBISCUS . . . Our seedling I. Deep pink to red, usually semi-double in form, but often stamens change to small petaloids forming a flower of the peony type. Leaves are stiff and serrated and borne on strong up-right branches. Blooms early. 6-8 in., 18-24 in., 18-24 in. Med., 18-24 in. G.

SMILING BEAUTY . . . Our seedling J. Semi-double, 3½-4½ inches, composed of 14-16 obovate petals of a delicate pink slightly deeper in color than *Magnoliaeflora*. 6-8 in. to 24-30 in. Spec., 30-36 in. G.

VICTORY MAID . . . Our seedling V. Very late bloomer. Medium size flower; some full double, imbricated, others semi-double with yellow stamens. Pure white. Leaves small and thin, growth compact. 6-8 in., 18-24 in. G.

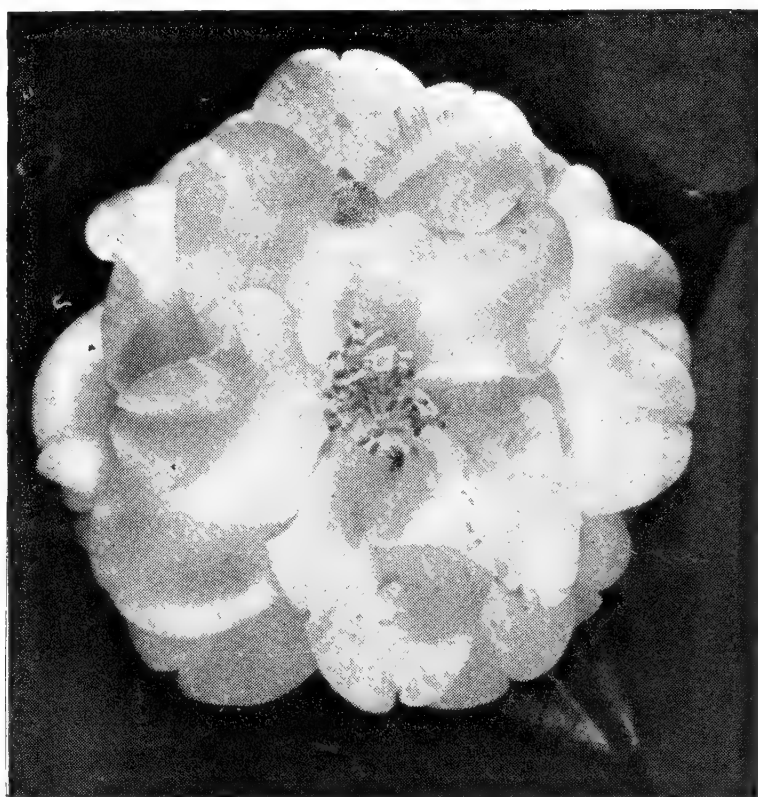

WHITE HIBISCUS . . . Our seedling O. Single to semi-double, 4-5 inches. Petals long and narrow and snowy white. Resembles closely the variety *Imura*, but differs in having fewer petals that are more simply arranged. An early bloomer, usually December. Leaves long, narrow and crinkled and borne on long slender twigs. 6-8 in. to 24-30 in. Spec.

White Hibiscus

OVERLOOK VARIETIES (Continued)

WHITE KING . . . Our seedling K. Semi-double, 4-5 inches in diameter. Petals thick and large of a porcelain texture. Snowy white with numerous yellow stamens. Leaves thick and large. 6-8 in., 8-12 in., 18-24 in., G.

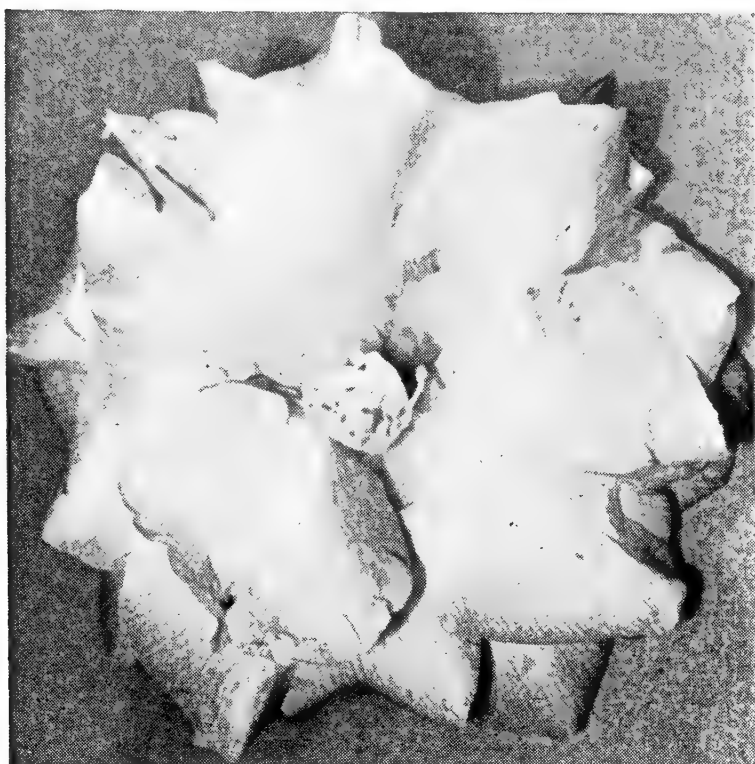

White King

WHITE QUEEN . . . Our seedling A. Very large semi-double, sometimes measuring over 6 inches. Petals pure white, somewhat small and pointed at the tips. Mid-season to late. 6-8 in., 8-12 in., 18-24 in. G. to 30-36 in. G.

son red of velvety softness. Anthers bright yellow, filaments pink. 6-8 in., 18-24 in., 18-24 in. Med.

SARA-SA . . . Our seedling #119. Semi-double, 4-5 inches in diameter. Has 12 large petals and yellow stamens in the center. Flesh color dotted and striped with darker pink. Blooms mid-season. Large leaves, vigorous grower. 6-8 in. to 24-30 in. Spec.

FRIZZLE WHITE . . . Our seedling #128. Semi-double with very wavy crinkled petals intermixed with numerous yellow stamens. Large flower often measures over 6 inches. Pure white. Leaves small, narrow and pointed. 6-8 in. to 30-36 in. Spec.

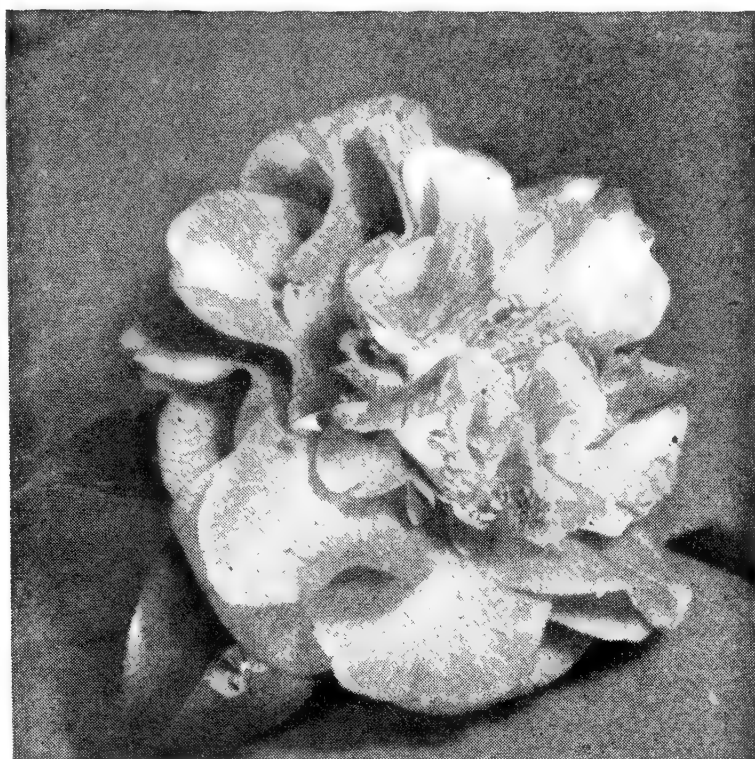

Frizzle White

HERMESPORT (Beauty of Holland) . . . We originated this variety from Herme. Characteristics of this sport are firmly established, flower very large, 4-5 inches, semi-double peony type much heavier than the parent Herme. Very beautiful dark crimson with white spots. 6-8 in. to 18-24 in. Med.

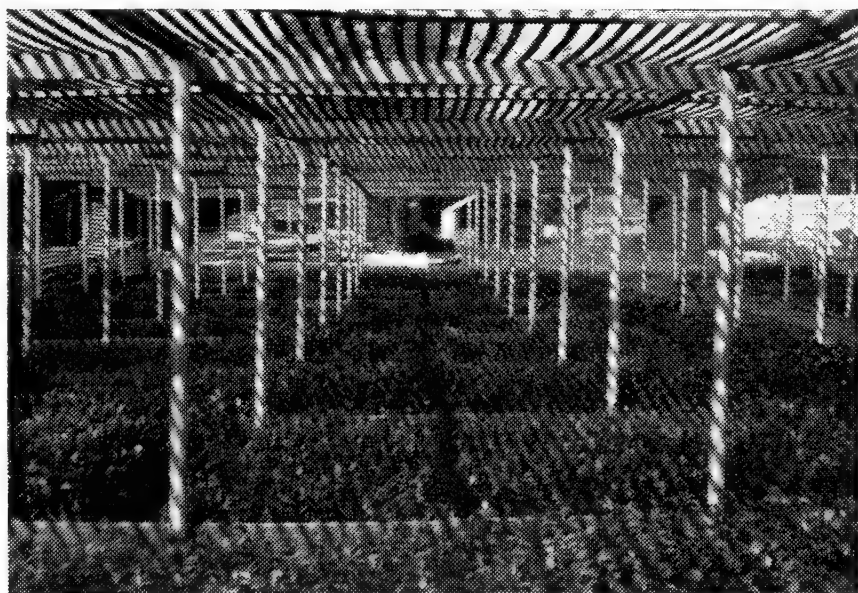

SHIRO-BOTAN . . . One of our seedlings from a group planted in 1931. Large, semi-double of a loose peony type, pure white. Unique with its cup and saucer form before opening fully. Variety is one of the fastest and most vigorous growers and an excellent understock for grafting. 6-8 in. to 24-30 in. Spec.

POTTED CAMELLIA LINERS UNDER LATH

RARE CAMELLIAS

We are offering this season in very limited quantities three special groups of newer and very rare Camellia japonicas. These are all outstanding varieties; several are imports while the others have originated in the various Camellia growing sections of the country and have been proclaimed for their fine qualities.

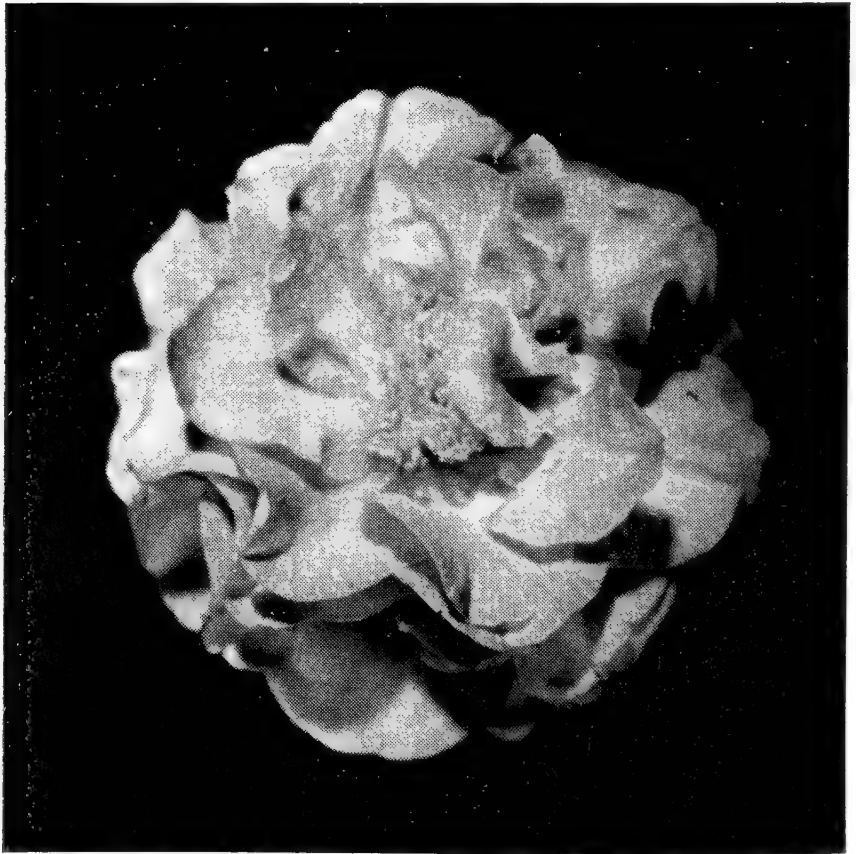

Special Group I

HIGH HAT . . . Sport of Daikagura. Large flower, loose peony form, pale pink. Graft only.

LETITIA SCHRADER . . . Very large peony form, dark red.

PEARL HARBOR . . . Very large, semi-double to double, imbricated. Bright red.

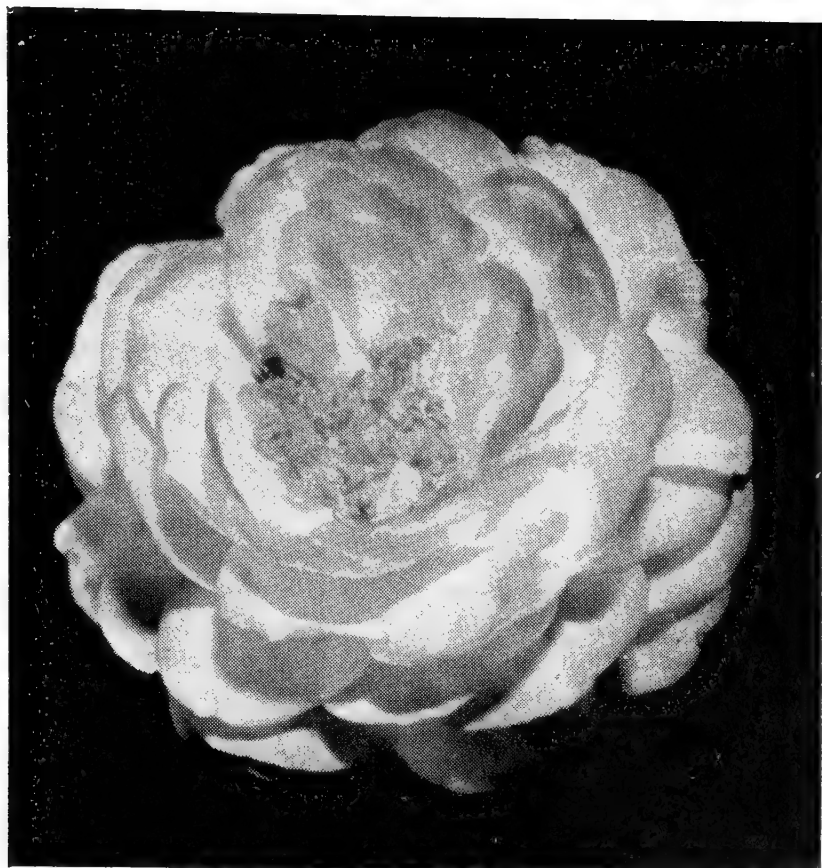

PINK DUCHESS OF SUTHERLAND . . . A sport of Duchess of Sutherland. Large semi-double, delicate pink. Graft only.

Thelma Dale

THELMA DALE . . . Very large loose peony form. Pink spotted with white. Graft only.

VILLE DE NANTES . . . Large semi-double red and white, petals fimbriated and petals toward center folded and standing up. Graft only.

Virgin's Blush

VIRGIN'S BLUSH . . . Large semi- double, pale pink.
Occasionally produces a flower of loose peony form.

Prices on Special Group I:	Each
Liner from pot.....	\$ 2.00
12-18 in. Graft.....	12.50
18-24 in. Graft.....	15.00

Special Group II

BARBARA MORGAN . . . Large semi-double, brilliant red color. Glorified variety of "Firebrand."

FLORENCE STRATTON . . . Large, full double, imbricated, usually white striped with pink. 12-18 in. G., 18-24 in. G.

GALILEE . . . Semi-double to loose peony type, very large. Pink. 12-18 in. G., 18-24 in. G.

GENERAL GEORGE PATTON . . . Seedling of Purity. Flower medium, full double, imbricated, bright pink. 12-18 in. G. to 24-30 in. G.

HISHIKARAITO . . . Small flower, bell shaped. Delicate lavender pink in color. Very sweet and unusual type. 12-18 in. G., 18-24 in. G.

IMPERATOR (French) . . . Different from our ordinary Emperor. Very large peony form, dark red in color.

SPECIAL GROUP II (Continued)

JUDGE BARRETT . . . Extra large flower of loose peony form. Red, sometimes variegated with white. 12-18 in. G. to 24-30 in. G.

KENNY . . . Large loose peony form, pink variegated with white.

KING LEAR . . . Donckelari type flower. Large semi-double, cherry red marbled with white. 12-18 in. G.

KURO TSUBAKI . . . Variety apparently belongs to *C. Saluenensis*. Flower very small, semi-double to double, dark red color that is nearly black. Blooms late, foliage small and borne on slender branches. A very unusual variety. 12-18 in. G., 18-24 in. G.

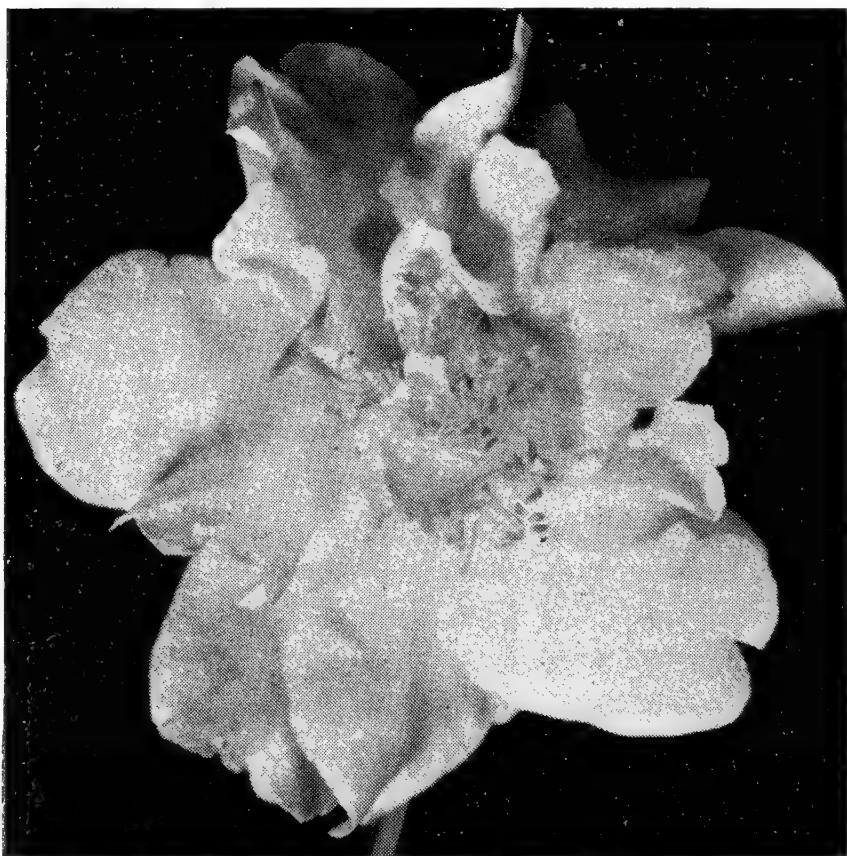

LAWRENCE WALKER . . . Very large flower of loose peony form. Brilliant red. 12-18 in. G., 18-24 in. G.

LILA ROSA . . . Large, full peony form, clear pink. 12-18 in. G. to 24-30 in. G.

PAULETTE GODDARD . . . A new variety, semi-double to loose peony form. Very large bright red, mid-season to late.

PINK LADY . . . A California variety that is a sport of *Peonyflora*. Flower very large usually peony type, flesh pink in color. Very beautiful. 12-18 in. G.

PRIDE OF DESCANSO . . . Has been known as California S. 103. Very large semi-double, pure white.

Pride of Descanso

SPECIAL GROUP II (Continued)

ROSEA MUNDI . . . Large semi-double with irregular and wavy petals. Deep pink, but often with attractive white variegation. 12-18 in. G. to 24-30 in. G.

Prices on Special Group II:	Each
Liner from pot	\$ 1.50
12-18 in. Graft	10.00
18-24 in. Graft	12.50
24-30 in. Graft	15.00

CAMELLIA JAPONICA GRAFTS, B&B

Special Group III

ANITA . . . Large semi-double, light pink striped with carmine red. 12-18 in. G.

BESSIE McARTHUR . . . Large semi-double, clear pink. Very good bloomer.

BIG BEAUTY . . . Full double white blotched with pink. 18-24 in. G.

CALIFORNIA . . . Large semi-double, rose pink. 12-18 in. G., 18-24 in. G.

CAPT. MARTIN'S FAVORITE . . . Medium size flower, full double, imbricated symmetrically. Deep pink color marbled with white. Early to mid-season. 12-18 in. G.

CLARA G. MYRICK . . . Imbricated, double. Distinctive with its twisted petals. Color deep rose. Liner.

CAMPBELL ASHLEY . . . Very large semi-double. brilliant deep red.

SPECIAL GROUP III (Continued)

- CASA BLANCA** . . . Full double, imbricated. Soft pink, some variegated with white. Liner to 18-24 in. G.
- CONFLAGRATION** . . . Large semi-double of bright red. Liner to 18-24 in. G.
- CREPE ROSETTE** . . . Semi-double to loose peony form. Deep pink to red with petals margined with white. Liner, 12-18 in. G.
- DAVID GERBING** . . . Large semi-double, pink. Late bloomer. Liner, 24-30 in. G.
- ELEANOR OF FAIROAKS (Variegated Vedrine)** . . . Loose peony form, deep red with variegation of white. 18-24 in. G.
- ELIZABETH ARDEN** . . . Medium size flower, full double, imbricated. Soft pink marked with carmine red stripes. Liner, 18-24 in. G.
- FRAGRANT STRIPED** . . . One of the sports of Herme. Semi-double loose peony, white striped with pink. Claimed that this variety has a slight fragrance. 12-18 in. G. 18-24 in. G.
- FRED SANDERS** . . . Medium size flower, semi-double, with curled and fimbriated petals. Bright crimson red and some spotted with white. Liner, 12-18 in. G.
- HENINGHAM SMITH** . . . Seems to be a sport of Alba Plena. Foliage, habit of growth and blooming period identical with Alba Plena, but flower is semi-double with yellow stamens. 12-18 in. G. to 24-30 in. G.
- HERMESPORT NO. 3** . . . Large semi-double white striped with red. 18-24 in. G.
- HIRENGE** . . . Large, semi-double to double, imbricated, water lily form. Crimson red, blooms early October. Liner.
- JOSEPH HOLLAND** . . . Full double, imbricated, pink blotched with white. 12-18 in. G.
- JOSEPHINE DUEL** . . . Large semi-double, soft pink. Liner, 18-24 in. G.

SPECIAL GROUP III (Continued)

- KOKURYO (Black Dragon)** . . . Heavy peony form, very deep crimson red in color. Liner, 12-18 in. G.
- LADY OF THE LAKE** . . . Large white, semi-double.
- LOUISE MACLAY** . . . Semi-double, deep pink. Blooms late. Liner to 18-24 in. G.
- MARGARET HIGDON** . . . Large semi-double of loose peony, rose red occasionally with white margins on the petals. Liner to 18-24 in. G.
- MARGARET WALKER** . . . Large semi-double to double imbricated, white striped with pink. 12-18 in. G., 18-24 in. G.
- MAGNOLIA QUEEN** . . . Large irregular semi-double. White with red stripes.
- MRS. BALDWIN WOOD** . . . Large semi-double to double, rose type. White striped with pink. 18-24 in. G.
- MRS. FREEMAN WEISS** . . . Large loose peony, rich pink occasionally variegated with white. Liner to 18-24 in. G.
- MRS. WALTER ALLAN** . . . Very large semi-double with prominent stamens. Rose red. Vigorous upright grower. 12-18 in. G. to 24-30 in. G.
- ONJI** . . . Very large semi-double resembling the variegated Lady Clare. Pink blotched with white. Liner, 12-18 in. G.
- ORANDAGASA** . . . Single, medium size flower with large fluted petals. Delicate rose pink. 12-18 in. G., 18-24 in. G.
- ORCHID PINK FRAGRANT** . . . Semi-double of medium size. Rose pink blotched with white. Is claimed that this variety has a slight fragrance. 12-18 in. G., 18-24 in. G.
- PINK PEONYFLORA** . . . Solid pink flower of Peony-flora. 12-18 in. G.
- RAINSFORD CANTELOU (Hall Towne)** . . . Large semi-double flower of pink slightly salmon tinged. Mid-season to late. 12-18 in. G.

SPECIAL GROUP III (Continued)

ROSE PLENA . . . Full double imbricated, medium size. Rose pink color. Profuse bloomer. 12-18 in. G.

ROSE GLORY . . . Large, semi-double rose pink. 18-24 in. G., 24-30 in. G.

SUIBIJIN . . . Single, medium size flower. Beautiful delicate pink. 18-24 in. G.

TIARA . . . Large semi-double, scarlet occasionally blotched with white. 12-18 in. G., 18-24 in. G.

TINA GILLIARD . . . Large, semi-double, pink with wavy petals. 12-18 in. G. to 24-30 in. G.

TINKY LEE . . . Medium to large, full double, imbricated. Occasionally produces loose peony form. Soft pink in color. Liner to 18-24 in. G.

YOHEI HAKU (September Morn) . . . Large semi-double to loose peony form, white with yellowish cast toward the center and occasionally a pinkish cast on the outside of the petals. Blooms early September. Liner to 18-24 in. G.

18-24 INCH CAMELLIAS 2 YEARS IN THE FIELD

Rare Group I

ADOLPH AUDUSSON RED . . . Very large semi-double, deep red with heavy textured petals. 6-8 in., 12-18 in. G.

ADOLPH AUDUSSON VARIEGATED . . . Very large semi-double. Deep red marbled with white. Mid-season. 6-8 in., 12-18 in. G.

DAIKAGURA . . . Very early, starts blooming in September. Double, peony form. Very large, deep rose in color. 6-8 in., 8-12 in., 12-18 in. G.

DAIKAGURA VARIANT . . . Same as the above variety but beautifully variegated with white spots. 6-8 in., 8-12 in., 12-18 in. G.

DONCKELARI (True Type) . . . An old variety that is still highly admired. Very large flower, 5-6 inches, consisting of 18-20 large petals and numerous yellow stamens. Dark crimson red mottled with white. Blooms mid-season. Slow grower with small foliage. 6-8 in., 12-18 in. G., 24-30 in. G.

Donckelari—(True Type)

DONCKELARI (Tea Garden Type) . . . Of the same type as the True or Georgia Donckelari, but this strain has more white variegation. 6-8 in., 12-18 in. G.

ELIZABETH BOARDMAN . . . One of the best whites from Magnolia Gardens. Large semi-double with golden stamens. Mid-season. 6-8 in., 12-18 in. G.

RARE GROUP I (Continued)

FIREGOLD (Dr. Shepperd) . . . Very large flower of semi-double to loose peony type. Crimson carmine. Mid-season to late. 6-8 in., 12-18 in. G.

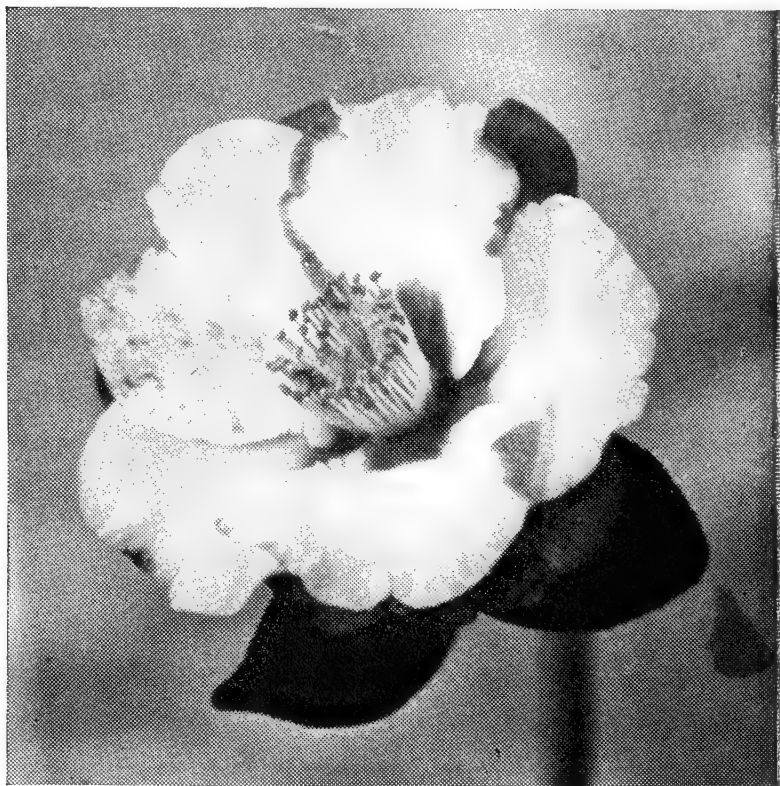

GIRARD DE BAILLON (Colletti Maculata) . . . Not very large, but an attractive form of peony type. Brilliant red and white. Slow grower. 6-8 in., 12-18 in. G. to 24-30 in. G.

GLEN 40 . . . Full double rose type, very dark red. Slow grower. Leaves thick and stiff with a dull point. 6-8 in., 8-12 in., 12-18 in. G., 18-24 in. G.

HAKURAKUTEN . . . Large semi-double white. 6-8 in. to 18-24 in., 12-18 in. G., 18-24 in. G.

HAKUTSURU (White Crane) . . . Large white, semi-peony type. 6-8 in.

IWANE-SHIBORI . . . Very beautiful large semi-double, variegated bright red with large white blotches. 6-8 in., 12-18 in. G., 18-24 in. G.

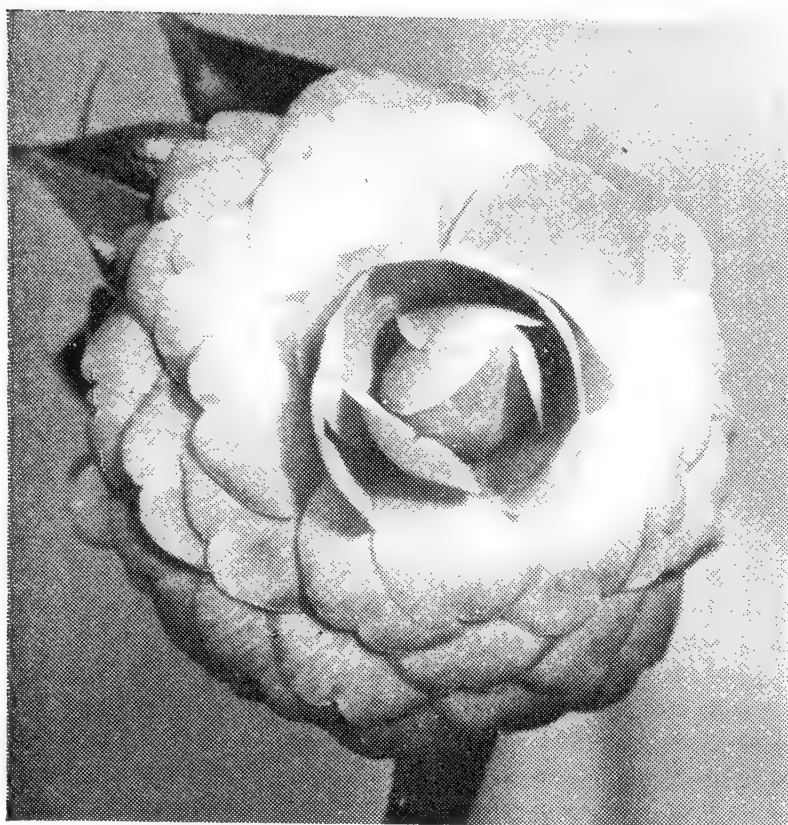

Iwane-shibori

KISHU-TSUKASA (Admiral Nimitz) . . . Large Tyrian pink with occasional petal mottled white. Imbricated opening flat. 6-8 in., 12-18 in. G.

LADY JANE GREY (Donckelari Eugene Lizze) . . . Semi-double flower, generally a loose peony. Beautiful cherry red, well marked with white. Small foliage, slow grower. 6-8 in., 18-24 in., 12-18 in. G., 18-24 in. G.

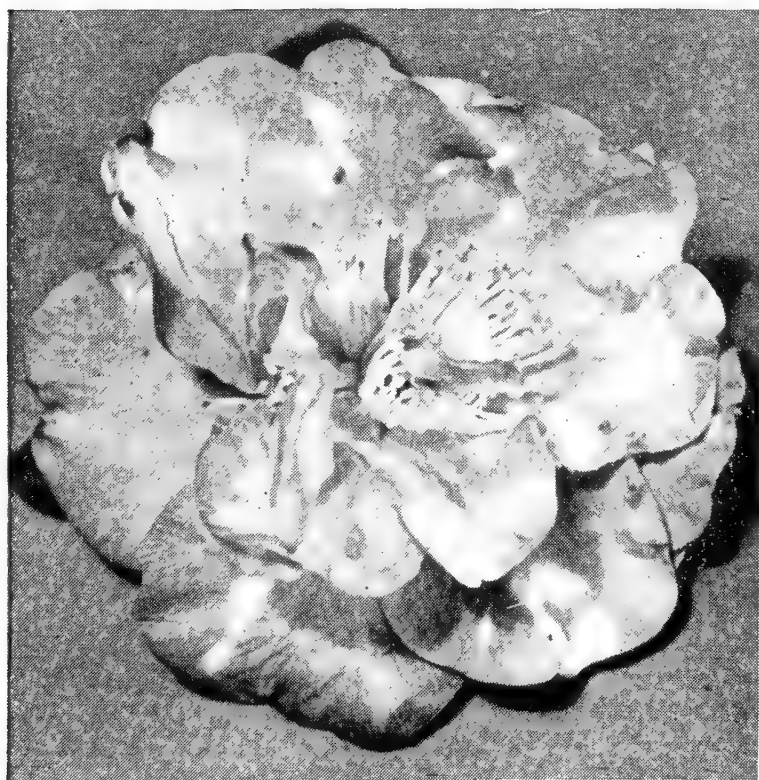

RARE GROUP I (Continued)

Kishu-tsukasa (Admiral Nimitz)

LADY MARY CROMARTIE VARIANT (La Reine Variegated) . . . Semi-double, very large. Deep pink or red of slightly margenta casting blotched with white spots. 6-8 in., 8-12 in., 18-24 in. Med., 12-18 in. G.

LINDSEY NIEL . . . Semi-double, loose peony type. Variegated dark red and white. Low spreading growth. 6-8 in., 12-18 in. G.

Lady Mary Cromartie Var.

RARE GROUP I (Continued)

MAGNOLIAEFLORA . . . Semi-double medium to large. Color beautiful delicate shade of blush pink. 6-8 in., 8-12 in., 12-18 in. G., 18-24 in. G.

MARIAN MITCHELL . . . Very large semi-double of scarlet red. Blooms late season. 12-18 in. G., 18-24 in. G.

MARTHA BRICE . . . Semi-double loose peony type. Delicate soft pink. Blooms mid-season. Leaves very large, roundish, thin texture.

MENA LADNIER (Duncan Bell) . . . Full double peony form. Brilliant blood red occasionally marked with white or solid pink. Mid-season. Vigorous grower with thick, heavy coarse branches. Leaves large and dark shiny green. 6-8 in. to 18-24 in. Med.

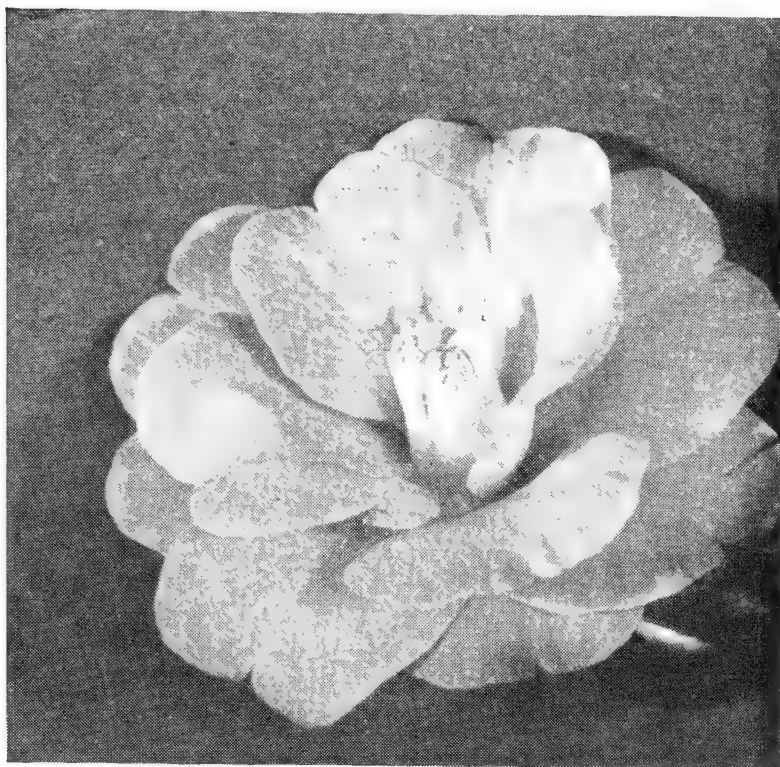

Mena Ladnier

MME. CHIANG KAI SHEK . . . Large semi-double of the Donckelari type. Deep pink beautifully marked with white. 6-8 in., 18-24 in. G.

RARE GROUP I (Continued)

REV. JOHN BENNETT . . . Semi-double, very large. Beautiful salmon pink, blooming mid-season to late. 6-8 in., 8-12 in., 12-18 in. G., 18-24 in. G.

Rev. John Bennett

ROSEA SUPERBA . . . Flower and foliage very closely resembles Mathotiana, but is deep pink in color. Very popular variety. 6-8 in., 8-12 in., 12-18 in. G., 18-24 in. G.

SODE-GAKUSHI (Lotus) . . . Semi-double, opens like a lotus flower with numerous yellow stamens. Pure white. 6-8 in., 12-18 in. G.

ST. ANDRE . . . Semi-double, generally peony type, 5-6 inches. Beautiful crimson carmine color. Blooms late season. Foliage very thick and dark green. 6-8 in., 8-12 in., 12-18 in. G., 18-24 in. G.

TOKI-NO-HAGASANE (Bessie M. Bellingrath) . . . Large semi-double flesh pink. 6-8 in., 12-18 in. G.

WOODVILLE RED . . . Very brilliant red peony type flower. 6-8 in., 8-12 in., 12-18 in. G., 24-30 in. G.

Rare Group II

- ARAJISHI (Aloha)** . . . Earliest of all camellias. In this locality starts blooming in August and continues to January. Large peony type; early blooms light in color, but later ones become deep crimson red. Deeply serrated leaves. 6-8 in., 8-12 in., 18-24 in. G., 24-30 in. G.
- ASPACEA (Emperor Variegated)** . . . Similar to Emperor in flower, foliage and growing habit. Beautifully variegated with white. 6-8 in. to 18-24 in. Med., 24-30 in. G.
- CATHERINE CATHCART** . . . Medium flower, full double, imbricated. Delicate pink marbled with white. Large, roundish, thick foliage. 6-8 in., 8-12 in.
- CHIYODANISHIKI (Princess Nagaskie)** . . . Large semi-double pink marbled with white. Long, dull green foliage, deeply serrated and crinkled. 6-8 in., 8-12 in., 18-24 in. G., 24-30 in. G.
- DAVIS ROSE DAWN** . . . Large full double, imbricated, rose pink. Vigorous grower with slender branches. 6-8 in. to 18-24 in. Med., 12-18 in. G. to 24-30 in. G.
- DEBUTANTE (Sara C. Hastie)** . . . Early bloomer, usually starts blooming before Christmas. Full double peony form. Very delicate soft pink. 6-8 in. to 18-24 in. Med.
- DR. W. G. LEE** . . . Large semi-double, sometimes nearly single. Dark crimson red. Slow grower with spreading habit. 6-8 in., 8-12 in.
- DUCHESS OF SUTHERLAND** . . . Large semi-double, pure white except one petal is marked with a narrow pink stripe. Free bloomer mid-season. 6-8 in. to 18-24 in. Spec., 18-24 in. G., 24-30 in. G.
- ELEANOR HAGOOD** . . . Medium flower, very double, pale pink. Few stamens when open. 6-8 in., 8-12 in.
- EMPEROR OF RUSSIA** . . . Very large double flower of peony form. Dark crimson red. Very large roundish thick foliage. 6-8 in. to 24-30 in. Spec.
- FIMBRIATA** . . . Resembles Alba Plena, but the edge of the petals are beautiful fimbriated or serrated. 6-8 in., 8-12 in., 12-18 in. G.
- FRANCINE** . . . Pink sport of Elegans (Chandler). Heavy peony type flower with a very high center. 6-8 in.

RARE GROUP II (Continued)

GIGANTEA . . . Very large flower, 5-6 inches. Usually semi-double with a large group of yellow stamens in the center. At times the yellow stamens change to numerous petalets forming a perfect peony flower. Dark crimson marked with white spots. Leaves extra large and thick and very dark shiny green. 6-8 in. to 3-4 ft. Spec.

GOSHOGURUMA . . . Semi-double, deep red with golden stamens. Upright grower. 6-8 in., 12-18 in. G., 18-24 in. G.

H. A. DOWNING . . . Semi-double, large, bright crimson to carmine red. 6-8 in. to 18-24 in. Spec.

HANAFUKI . . . Single to semi-double. Large flower of beautiful soft pink. 6-8 in., 12-18 in. G.

JACKSONII . . . Sport of Gigantea. Blooms solid red with very little variegation. 6-8 in., 8-12 in.

JESSICA . . . Large semi-double of the hibiscus type. Bright red, vigorous upright grower. 6-8 in. to 24-30 in. Spec.

KAGIRI (Dante) . . . Flower small, imbricated with many small pointed white petals. Full double but irregular as some late blooms show stamens. 18-24 in. Med.

LADY CLARE (Empress) . . . Very large semi-double. Large petals, light pink. Very showy variety for landscape. 6-8 in. to 3-4 ft. Spec.

LADY CLARE VARIANT (Empress Variegated) . . . Sport of Lady Clare. Variegated pink and white. 6-8 in. to 3-4 ft. Spec.

LADY HUMES BLUSH . . . Rare old variety. Full double rose type. White with delicate flesh pink. 6-8 in., 8-12 in.

LADY VAN SITTART VARIEGATED . . . Large semi-double, white striped with deep pink or red. Small narrow pointed leaves, crinkled and very shiny dark green. Upright grower. 6-8 in., 8-12 in., 18-24 in. Med., 18-24 in. Spec.

LAUREL LEAF . . . Full double, imbricated with reflexed petals. Color widely ranges from light salmon pink to deep rose usually blotched with white. Leaves narrow and pointed like a Laurel. 6-8 in., 8-12 in.

RARE GROUP II (Continued)

MARCHIONESS OF EXETER . . . Full double peony type of soft pink. Blooms early to mid-season. 6-8 in., 8-12 in.

MARGHARITA CALEONIE . . . Medium size flower, full double, imbricated. Variegated bright red with white. 6-8 in. to 24-30 in. Spec.

MATHOTIANA (Purple Emperor) . . . Very popular variety. Very large flower, 5-6 inches, imbricated. Dark crimson red with a purplish casting. 6-8 in. to 18-24 in. Spec., 3-4 ft. Spec.

MATHOTIANA VARIANT (C. M. Hovey, Paulina). Very large flower, full double, imbricated. Dark crimson red marbled with white. Probably a sport of the Mathotiana. 6-8 in. to 3-4 ft. Spec.

MATSUKASA . . . Differs from all other camellias. Its cylindrical shape with narrow and pointed petals resembles closely the southern pine cone. Rose red color speckled with white. Slow grower. 6-8 in.

MRS. CHARLES COBB . . . Large semi-double, loose peony type. Dark crimson red, almost black. 6-8 in. to 18-24 in. Med., 18-24 in. G.

NAGASAKI . . . Very large flower, semi-double, color usually white on soft pink. Blooms early to mid-season. 6-8 in. to 18-24 in. Spec.

PINK BALL . . . Medium sized peony form. Round shaped flower of soft pink. 6-8 in., 8-12 in.

PINK GLORY . . . Semi-double pink showing golden stamens. 6-8 in., 8-12 in., 12-18 in. G. to 24-30 in. G.

PINK STAR . . . Large peony type of bright rose pink. Outer row of petals form a somewhat starlike appearance. Blooms mid-season. 6-8 in. to 18-24 in. Med.

PRIDE OF GREENVILLE . . . Local name. Very large full double, peony form. Bright red in color. Mid-season, upright grower. 6-8 in. to 18-24 in. Med.

PURPLE PEONY (William Penn) . . . Semi-double peony type. Very dark crimson to deep purple color with large white blotches. Slender branches somewhat drooping. 6-8 in. to 18-24 in. Spec.

SHOWA-NO-HOMARE . . . Very large single flower with petals somewhat creped. Snowy white. 6-8 in., 8-12 in., 12-18 in. G.

RARE GROUP II (Continued)

SHU-BENI-HITO . . . Flower medium to large, single with roundish petals. Deep crimson. Very unique when the anthers are enlarged to small petaloids pinkish white in color and crowded into the center forming a type of anemone flower. 12-18 in. G., 18-24 in. G.

VEDRINE . . . Semi-double to double peony form, 4-5 inches. Brilliant red shading into a deep crimson of a velvety tone. Blooms mid-season. 6-8 in., 8-12 in., 18-24 in. G., 24-30 in. G.

VICTOR EMANUEL . . . Very large loose peony shaped flower measuring 5-6 inches. Deep velvety red. Blooms late. 6-8 in. to 3-4 ft. Spec.

Standard Group I

AKEBONO . . . Medium sized, semi-double flower of beautiful light salmon pink. Arrangement of the petals gives this flower a distinctive and different appearance from other camellias. 6-8 in. to 18-24 in. Spec.

AKEBONO VARIEGATED . . . Variety with white variegation.

ALBA SUPERBA . . . Large semi-double, pure white.

AUGUSTA WILSON (St. Elmo) . . . Very double peony type. Soft pink with some flowers marked with faint white spots. Blooms December. Leaves large, thick and roundish. 6-8 in.

ALBA PLENA . . . Full double pure snowy white. One of the best whites, but does not stand extremely cold winters in this locality. 6-8 in., 8-12 in.

STANDARD GROUP 1 (Continued)

- BRILLIANT** . . . Medium to large full double rose type. Brilliant red, compact grower.
- C. M. HOVEY (Col. Firey)** . . . Bright red to deep vermillion red, 4-5 inches. Very double. Blooms mid-season to late. 6-8 in. to 18-24 in. Med.
- ELEGANS (Chandler)** . . . Semi-double to double peony type. Has one of the largest blooms of all camellias. Pretty cherry red with white variegations. Slow growth, very popular. 6-8 in., 18-24 in. Med.
- GOVERNOR MOUTON** . . . Large peony type, oriental red marked with white spots. Free bloomer mid-season.
- HIBISCUS** . . . Large single flower composed of 6 large petals and numerous stamens formed cylindrically at the center. Deep pink. 6-8 in. to 18-24 in. Spec.
- KUMASAKA** . . . Large peony type of deep pink. 6-8 in., 8-12 in.
- LATIFOLIA (Fanny Bolis)** . . . Medium to large, semi-double, rose red blotched with white. Vigorous, bushy growth. 6-8 in. to 18-24 in. Med.
- MATHOTIANA ROSEA** . . . Sport of Mathotiana Alba. Large full double rose type of flesh pink. 6-8 in., 18-24 in. Spec., 24-30 in. Spec.
- MONARCH** . . . Peony type of deep pink often spotted with white. Blooms often measure 6 inches.
- MONJISU** . . . Semi-double, medium flowers of brilliant carmine red with satin-like sheen. Compact with small glossy, extra dark green leaves. 6-8 in. to 18-24 in. Spec.
- MONJISU VARIANT** . . . Has white variegation, very showy. 18-24 in. Med., 18-24 in. Spec.
- MRS. F. L. GIBSON** . . . Single, medium in size. Color generally white striped with narrow red lines, sometimes producing solid red flowers. Vigorous grower with slender branches and very small foliage. 6-8 in., 8-12 in.
- PANACHE** . . . Medium size flower of double to semi-double informal type. Beautiful blend of pink and ivory white. Blooms early.

STANDARD GROUP 1 (Continued)

PINK HERME . . . Like Herme except flower is solid deep pink in color. 6-8 in., 8-12 in.

PURITY . . . Pure white, full double flower with open center. 6-8 in., 8-12 in.

REV. JOHN G. DRAYTON (Mary E. M.) . . . Large salmon pink flower, semi-double. Mid-season to late. Vigorous grower and free bloomer.

RHAPSODY . . . From California. Large semi-double flower of a pretty pink color. Vigorous upright grower, early to mid-season.

SEMI-DOUBLE BLUSH . . . Medium size, pleasant blush pink color. 6-8 in., 18-24 in. Spec., 24-30 in. Spec.

SWEETI VERA . . . Large semi-double peony type. Flesh pink marked by small stripes or dots of deeper pink. Blooms early to mid-season.

TEUTONIA WHITE

TEUTONIA LIGHT PINK

TEUTONIA DEEP PINK . . . Formal double, imbricated, tips of petals curve inward and overlap each other symmetrically. Parent plant produced three different blooms, which after a number of years have been segregated by color. The white has a narrow faintly pink stripe; light pink flower is flesh pink similar to Pink Perfection or Otome; deep pink flower is a solid deep rose. 6-8 in. to 18-24 in. Med.

WATERLOO (Ethrington's White) . . . Large semi-double pure white. Leaves small, very glossy green. 6-8 in., 8-12 in., 24-30 in. Spec.

Prices on Standard Group I:	Each	10
6- 8 in. from pot.....	\$.70	\$ 5.50
8-12 in. from pot.....	.85	7.00
18-24 in. Medium.....	4.00	
18-24 in. Specimen.....	5.00	
24-30 in. Specimen.....	6.25	

Standard Group II

AMABILIS . . . Single with roundish petals and heavy center of yellow stamens. Medium to small white.

BELLE ROMANA . . . Full double, very soft pink striped profusely with dark crimson. 6-8 in., 8-12 in.

STANDARD GROUP II (Continued)

BLACK PRINCE . . . Deep crimson-carmine, nearly black. Medium, rose type, imbricated with a few yellow stamens. 24-30 in. Spec.

CAMEO PINK . . . Full double rose type flower of medium size. Light pink. 6-8 in. to 18-24 in. Med.

CANDIDISSIMA . . . Very double, pure white flower of medium size. Petals overlap each other symmetrically forming a star shape. 6-8 in.

COUNTESS OF ORKNEY . . . Double rose type. Usually white with pink stripes, but sometimes solid pink. Slow and compact grower. 6-8 in., 18-24 in. Med.

DERBYANA (J. G. Peonyflora) . . . Very large semi-double to double peony type flower blooming late season. Dark crimson in color. Vigorous grower.

FLESH PINK PEONY (Daybreak) . . . Very late, flower medium, peony type of beautiful flesh pink. Compact and blooms heavily.

HERME . . . Very large semi-double, variegated pink and white. Margin usually white. A very popular variety.

HORKAN (Variabilis) . . . Semi-double to peony form, white striped red and pink and in solid colors.

IMPERATOR . . . Full double peony type, medium size. Brilliant Christmas red.

IL TRAMONTO . . . Different from our Laurel Leaf. Flower medium size, full double rose type. Stocky growth, large, round foliage. Pink marbled with white. 6-8 in.

LADY VAN SITTART . . . Large, semi-double of a most pleasant shade of red. Mid-season. Very small, narrow pointed leaves, crinkled and very shiny dark green. Upright grower.

LEE'S PINK . . . Medium size, full double, imbricated, pink. Excellent variety for out-door planting as it opens very well after a freeze. 6-8 in., 8-12 in.

STANDARD GROUP II (Continued)

MATHOTIANA ALBA . . . Large full double rose type flower, pure white, but occasionally striped with pink. Leaves large and thick. 6-8 in., 8-12 in. 24-30 in. Spec.

OPELOUSAS PEONY . . . Peony form flower with light pink and white, but occasionally solid pink.

OTOME . . . Full double, flesh pink with darker veins. 6-8 in., 18-24 in. Med. to 24-30 in. Spec.

PINK PERFECTION . . . Most popular variety. Full double, light pink. Early free bloomer.

PRINCE EUGENE NAPOLEON (Ladnier's Red, Pope Pius) . . . Large, very double, bright red to dark red, sometimes spotted with white. Hardy and a free bloomer.

PROF. SARGENT . . . Full double peony type, tightly formed. Very dark red color. Blooms freely mid-season. 6-8 in. to 18-24 in. Med.

STILE'S PERFECTION PINK . . . Formerly called Rubra Virginalis by us. Peony type, pleasant soft pink color. Early and free bloomer. Small foliage. 6-8 in., 18-24 in. Med.

TRICOLOR WHITE (Leucantha) . . . Sport of Tricolor. Pure white semi-double with yellow stamens in the center. 6-8 in., 8-12 in., 24-30 in. Spec.

TRICOLOR SEIBOLDI . . . Semi-double, variegated pink and red with white. Heavy bloomer and one of the most dependable varieties for outdoor planting. 6-8 in., 18-24 in. Med.

WILLIAM DOWNING . . . Semi-double, with straight thick petals which are purplish pink or red in color. Very vigorous and highly resistant to cold. 6-8 in.

Prices on Standard Group II:	Each	10
6- 8 in. from pot.....	\$.50	\$ 4.00
8-12 in. from pot.....	.60	5.00

CAMELLIA SASANQUA

The popularity of the *Camellia sasanqua* has grown tremendously in the past decade. It is a fine ever-green shrub with beautiful flowers in the fall. Its foliage is small, dark shiny green with slender branches. It gives a softer tone and adds to the artistry of the landscape. There is no plant, in our opinion, more suitable for the southern garden than the *sasanqua*.

The *sasanqua* blooms in the fall, from September to December, and before the severe freezes. Therefore, it can be planted in a wider territory than the *Camellia japonica* and comes into bloom when nothing else is in color. It is much hardier than the *japonica* and grows in more different soils and withstands to a greater degree excess or lack of moisture, fertilization, etc. There is a large demand for the *sasanqua* as understock for grafting and it is probably the best understock.

HINODEGUMO . . . Large flower, single with 8-9 petals which are wavy and crepe like in texture. Color white with pink edge. A very good variety. 12-18 in. G.

HIODOSHI . . . One of the prettiest variegated varieties. Flower 2½-3 inches in diameter with 9 petals, variegated beautifully with crimson and white as in a moire pattern. Compact and slow grower. 12-18 in. G.

Hiodoshi

HIRYONISHIKI . . . Semi-double, petals generally waved and crinkled. Beautiful cherry red blotched with white. 12-18 in. G.

KOWKYOKU (Little Gem) . . . Full double imbricated flower. White with a faint marking of pink.

SHISHIGASHIRA . . . Imported from Japan. Flower semi-double to double, somewhat imbricated, small, 2 to 2½ inches in diameter. Color beautiful dark crimson red. Blooms November to December. Foliage thick, dark green. Very slow grower and dwarf natured. Recommended highly for the small garden and also very suitable for pot culture.

USU BENI . . . Identical with Usuiro Kantsubaki. However, "Tsubaki" means Japonica, so temporarily we are calling this variety "Usu Beni" or light pink. This variety may be the same as Show-no-sakae but we have not been able to trace it and do not definitely know yet. Flower semi-double to double, loose peony form. About 3 inches across. Color soft pink with some white variegation. Leaves very thick, deeply crenulated, extra dark green. Slow grower and dwarf in nature.

Prices on the above 6 rare varieties:

12-18 in. Graft.....	\$ 6.00 each
18-24 in. Graft.....	7.50 each

CLEOPATRA . . . Semi-double, peony type, 3 inches in diameter. Rose pink in color. Very compact grower with dark shiny green leaves. Best for screen planting as well as individual specimens. 6-8 in. to 2-3 ft.

DAWN . . . Hardest of all sasanquas. Blooms withstands the severest freezes. Buds are perfect when others are frozen. Semi-double, ivory white with flesh pink at the margins of the petals. Compact and symmetrical in shape. Slow grower.

Prices on the above two varieties:

	Each	10	100
6- 8 in. C.T.....		\$3.00	\$25.00
8-12 in. C.T.....		3.50	30.00
18-24 in. B&B.....	\$2.50		
2-3 ft. B&B.....	3.50		
3-4 ft. B&B.....	4.50		

BRILLIANCY . . . Single flower with 7-8 petals. Color light rose pink. Very compact upright grower with dark shiny green foliage. 6-8 in. to 2-3 ft.

MINE-NO-YUKI (Snow on the Mountain) . . . Most popular variety. Flower large, semi-double to double, loose peony form. Pure white in color. Very good grower with spreading branches.

Prices on the above two varieties:

	Each	10	100
6- 8 in. C.T.		\$2.50	\$20.00
8-12 in. C.T.		3.00	22.50
2-3 ft. B&B	\$3.00		
3-4 ft. B&B	4.00		

CRIMSON BRIDE . . . Single, dark crimson red, 5 petals.

MAIDEN BLUSH . . . Single flower of delicate pink.

BUTTERFLY (White Butterfly) . . . Single, white with pink margin. Very vigorous grower. Best for understock for grafting *Camellia japonica*.

Price on the above three varieties:

8-12 in. C.T.	\$2.75	\$22.50
--------------------	--------	---------

The following varieties were selected from among thousands of seedlings grown by us. Some of the names which we had given these seedlings may have been the cause of some confusion with the names of *japonica*. Therefore, we consulted Dr. H. Harold Humes and a number of changes were made as indicated below.

AUTUMN BEAUTY (Jeff's Watermelon Pink) . . . Large flowers, 3½-4 inches across, 8 petals. Watermelon pink, blooming October and November. Upright, but dwarf type. Not available this season.

Floribunda

FLORIBUNDA . . . 6-7 petals, white edged with lavender pink. Blooms from September to the end of November. Vigorous upright and compact grower. Ideal for screen planting. 6-8 in. to 2-3 ft.

GULF GLORY (*Grandiflora Alba*) . . . Single, large 3½-4 inches in diameter. Pure white, blooming from October to December. Upright and spreading somewhat. 6-8 in., 8-12 in.

LAVENDER QUEEN . . . Single, 7 petals, 3-3½ inches. Lavender pink. 6-8 in., 8-12 in., 2-3 ft., 3-4 ft.

PAPAYER (*Rosea Papaver*) . . . Single with 8 petals. Bell shaped flower (resembling poppy) until full open. Blooms early—September to October—and slender upright grower with compact branches. 6-8 in., 8-12 in., 2-3 ft.

Papaver

ROSY MIST (*Rosea Magnifica*) . . . Large single with 6-8 petals. Very delicate soft pink, October to November. Leaves very large, thick and of very coarse texture. deeply crenulated. Spreading grower. 6-8 in., 2-3 ft.

SLENDERLEE (*Mutt's Watermelon Pink*) . . . Very fast upright grower with slender branches. Flower medium size, 5 petals. Watermelon pink. 6-8 in., 8-12 in., 3-4 ft.

Splendor

SPLENDOR (Rosea Grandiflora) . . . One of the most profuse bloomers. Flower very large 3½-4 inches with 10 petals of delicate soft pink lighter toward the center. Blooms October to November. Spreading grower and very graceful. 6-8 in., 8-12 in., 2-3 ft., 3-4 ft.

VELVETY (Crimson Velvetti) . . . Single, 6-7 petals 3-3½ inches. Color crimson red with velvety tone. Blooms October to November. Compact, semi-spreading type. 6-8 in., 18-24 in.

VERSICOLOR (Tricolor Magnifica) . . . Medium flower with 6 petals. Color is an arrangement of pink lavender and white that is very showy. Blooms October to November. Compact upright grower. 6-8 in., 18-24 in., 2-3 ft.

WILLOW LEAF . . . Leaves of this variety are very unusual. Very long and narrow and slightly crenulated. Resembles the leaves of the willow. Flower single with 6 petals, medium size, white with faint pink margin. Compact upright grower. 6-8 in., 18-24 in.

Prices on New Sasanquas:	Each	10
6- 8 in. C.T.		\$4.00
8-12 in. C.T.		5.00
18-24 in. B&B	\$2.50

AZALEAS

There is nothing more colorful or more beautiful than azaleas in full bloom in the spring. Azaleas bloom in such profusion that each plant is a solid mass of color. With the introduction of many new early and late varieties it is possible to have them in bloom in your garden from February to June. Also, in recent years azaleas have been planted and grown successfully beyond the bounds of the Lower South and they are easily grown provided a few basic facts of its culture are observed.

Azaleas thrive in acid soil; use plenty of leaf mold, pond muck, peat moss to acidify the soil and also to make it more suitable where it is sandy and porous and deficient in plant food or where the soil is stiff and compact clay. Lime or alkaline soil is poisonous and if it is to be used apply aluminum sulphate at the rate of one 4-inch pot full to a wheelbarrow of soil.

As the azalea root system is very shallow, it dries rapidly. Apply sufficient water to keep roots moist. They will not, however, tolerate water saturated condition, so beds must be located where surplus water will drain quickly. Azaleas thrive best in partial shade, but dense shade should be avoided if good blossoms are expected. Larger and older plants may be planted in the full sun-light.

The azalea is not a gross feeder. If plenty of leaf mold or like organic matter is applied it does not require any commercial fertilizer. Do not fertilize heavily as the root system is easily injured. If necessary apply lightly well rotted manure or commercial fertilizers such as Vigoro, tung meal or cottonseed meal.

Red spider and thrips sometime bother azaleas. Frequent spraying of the plants with water will usually eliminate this trouble, but if necessary spray or dust with a sulphur mixture.

NOTE—The 4-6 in. and 6-8 in. azalea liners listed herein are bed-grown plants suitable for growing on and lining out and are not finished plants. They are grown under glass during the winter and are ready to be shipped in the spring, generally about April 1. They are grown in beds of pure peat and develop an excellent root system and bushy tops.

Minimum order on liners—5 plants of each variety.

Indica Azaleas

The most popular group of azaleas along the Gulf Coast region and Lower Atlantic coast. Flowers very large and single and found in a wide range of colors. Fast growers that develop into large size bushes.

BRILLIANT . . . Bright watermelon-red, flower medium size, mid-season. Small leaves, compact growth. Liners, 10-12 in.

COCCINEA MAJOR . . . Brilliant orange-red. Compact, low grower.

CRITERION . . . Late bloomer, low grower. Variegated pink and white. Liners, 10-12 in.

DAPHNE SALMON . . . Medium flower of light salmon. Early, upright growth.

DUC DE ROHAN . . . Very compact growth. Salmon pink.

ELEGANS . . . Very early pink. Upright growth. Liners, 10-12 in.

FIELDER'S WHITE . . . Early, large pure white flower. Strong upright growth. Liners only.

FORMOSA . . . Large lavender flower, mid-season. Large leaves, vigorous grower.

GEORGE FRANC . . . Flame pink with deep carmine spot at the throat. Early, large flower. Liners only.

GEORGE L. TABER . . . Very large flower, flesh pink with deeper markings. Liners only.

GULF PRIDE . . . Sport of Indica Alba (*Ledifolia* Alba). Medium to large flower, light purple. Blooms mid-season. Very hardy, upright and open growth. Liners only.

INDICA ALBA (*Ledifolia* Alba) . . . Pure white flower, mid-season. Very hardy.

MAXWELL WHITE . . . Large white with long petals. Liners only.

PINK BEAUTY . . . Deep pink, early following Elegans. Upright growth.

PERFECTION (*Fisher's Pink*) . . . Rose pink, large, mid-season.

PRESIDENT CLAY . . . Orange-red flower, early.

PRIDE OF MOBILE . . . Watermelon pink. Flower very large, mid-season. Hardy and vigorous growth. One of the best Indicas.

PRINCE OF ORANGE . . . Deep orange-red flowers, mid-season to late. Compact low growth.

YACHIYO . . . Indica and Macrantha hybrid. Large lavender flower, hose in hose, blooms late. Also blooms in the late fall. Liners only.

Belgian Indica Azaleas

This group of azaleas produces very large double or semi-double flowers of various brilliant colors and variegations. Very slow growers and more difficult to grow and will not stand very low temperatures, but well worth the extra care required. Used extensively as pot plants by florists.

ALBERT ELIZABETH . . . Large double, white with frilled deep pink edge. Liners only.

BLUSHING BRIDE . . . Late bloomer, beautiful blush pink, double.

COUNT DE KERCKHOV . . . Large double, fringed petals, variegated rose pink with white edge.

TRIUMPHE . . . One of the most popular of this group. Large double, deep crimson.

VERVAENEANA . . . Very popular variety. Salmon rose color with lighter border.

VERVAENAENA ALBA . . . Large double white.

VERVAENAENA SALMONICA . . . Sport of Vervae-
neana. Salmon color.

New Kurume Azaleas

FUJI-NO-ASAHI . . . Medium to large flower, hose in hose. White with faint salmon pink flushed on the tips of the petals. Leaves large, thick, shiny, dark green. Vigorous grower.

HIME-KAGAMI . . . Small to medium flower, hose in hose. White with occasional stripes of faint pink. Vigorous and compact grower.

KINTAIYO . . . Large hose in hose type with long white petals which are edged with bright orange. Attractive and distinctive.

KUMOI . . . Medium to large hose in hose flower with somewhat crinkled petals. Light crimson carmine with less coloring at the throat. Leaves medium to large and shiny green.

MIZU - NO - YAMABUKI . . . Small creamy white flower, has yellowish appearance.

YAKUMO . . . Maroon red, hose in hose with roundish petals. Roundish leaves, very compact.

Prices on New Kurume Azaleas:

	Each	10	100
4-6 in. Liners			
(Spring delivery) -----		\$2.00	\$15.00

Kurume Azaleas

This group is more commonly known as dwarf azaleas. Flowers are small in comparison with Indicas, but bloom in greater profusion, in a wide range of colors. Some produce a single flower, others, double which is described as a "hose in hose" type.

The Kurumes are much hardier than the Indicas and when planted in sheltered or protected locations they will grow as far north as Long Island, New York. These are ideal plants for pots for florists' use and also for outdoor plantings in borders, rock gardens and beds.

APPLE BLOSSOM . . . White shaded pink with light center. Hose in hose. Liners only.

BENIGIRI . . . Bright deep pink, single, mid-season. Upright grower. Liners only.

BRIDESMAID . . . Bright salmon red flower in large trusses. Mid-season.

CARMINE PRINCE . . . Large, hose in hose, carmine red. Mid-season to late. Liners only.

CHRISTMAS CHEER . . . Flower Christmas red, small, hose in hose. Compact grower, blooms early.

CORAL BELL . . . Coral pink color shading deeper toward center. Flower dainty, hose in hose. Compact grower.

DAYBREAK . . . Pink flower in dense clusters. Mid-season.

****FLAME** . . . Large single flower of brick dust red. Blooms early. Vigorous upright grower.

HEXE (Firefly) . . . Kurume hybrid that grows slowly and compactly. Flower large, crimson red, semi-double. Mid-season. Liners only.

HINODEGIRI . . . One of the most popular of this group. Medium size single flowers of bright crimson. Leaves roundish, glossy green. Very dwarf and compact.

HINAMOYO . . . Soft pink flower of medium size. Upright grower. Liners only.

MAUVE BEAUTY . . . Very dainty flower, beautiful shade of mauve.

PINK PEARL . . . Cherry rose color shading lighter to center. Hose in hose, mid-season. Liners only.

SALMON BEAUTY . . . Large, hose in hose, salmon pink. One of the best salmon varieties.

SNOW . . . Pure white flower blooming profusely in clusters. Hose in hose. Low compact growth. Liners only.

Prices on Kurume Azaleas:	Each	10	100
4-6 in. Liners			
(Spring delivery).....		\$1.50	\$12.50
6- 8 in. B&B.....	\$.85	7.00	
8-10 in. B&B.....	1.00	8.00	

****These are upright growers and 10-12 inch and 12-18 inch plants will be sold at the 6-8 inch and 8-10 inch prices respectively.**

Macrantha Azaleas

Varieties belonging to this Macrantha group bloom very late, in this locality in May and June and some even throughout the entire summer. Flowers are very large; some are single, some hose-in-hose, while others

are full double, all in a wide range of colors. Very compact growers with small, glossy dark green foliage. Very hardy and a desirable plant for landscaping.

BENI-KIRIN . . . Double flower, brilliant blood red.

FUJI-NISHIKI . . . Very large flower with wavy petals. White striped with faint narrow lavender lines.

GUMPO . . . One of the most dwarf azaleas known. Large white flower, occasionally striped with one or two lines of faint pink. Ideal for rock gardens, borders and also as a pot plant. Liners only.

IZAYOI . . . Flower single, 3 inches in diameter. Very pleasant flesh pink.

MACRANTHA . . . Large single flower of clear pink. Grows very compact.

MACRANTHA DOUBLE . . . Double flower of large size, clear pink. Compact, but somewhat upright.

RED MACRANTHA . . . Very beautiful large single flower, dark orange-red.

OKINA-NISHIKI . . . Orange red hose-in-hose flower. Blooms heavily in the fall as well as in the spring.

SAKURAGATA . . . Single, dark crimson with large patch of white in the throat.

WAKAEBISU . . . Large hose-in-hose, bright salmon pink color.

WAKAMATSU . . . Single, very large flower of delicate purple.

SEI-DAI . . . Very large single, cerise red with a white throat. Blooms earliest of the Macranthas.

Prices on Macrantha Azaleas:

Kaempferi Azaleas

Very hardy plants with large blossoms. Grows rather slender and tall.

BETTY . . . Brilliant crimson pink of large size.

FEDORA . . . Deep salmon rose.

MARY . . . Deep pink, distinct from the others.

OTHELLO . . . Orange red. Vigorous grower.

PURPLE KING . . . Purplish rose.

GRETCHEN . . . Dark mauve.

LAGERSTOEMIA INDICA . . . Crepe Myrtle. Colors red, white and flesh pink.

3-4 ft. B.R.....	\$6.00	\$50.00
4-5 ft. B.R.....	9.00	75.00

Magnolias

Oriental Magnolias are much in demand throughout the United States and increasing in popularity. Most beautiful when in full bloom in the spring and should be found in every garden.

We are pleased to offer this season the following rare varieties of Magnolias:

MAGNOILA VEITCHI . . . One of the best hybrids of *M. Denudata* and *M. Campbelli*. Very large flower, 6 inches in length with 9 petals. When full open often measures 8 to 10 inches in diameter. Pinkish white in color with darker purplish pink at the base and along the mid-rib of the petals. Has large leaves, grows vigorously.

M. CORDATA . . . A variety of *M. Acuminata* (Cucumber Magnolia) which grows very well in the South. Flower medium size, about 5 inches and of beautiful canary yellow color. Grows very tall and has broad roundish leaves. Our plants are grafted on Oriental Magnolia stock which likely will make the variety more dwarf in form and more desirable. One of the rarest Magnolias. 2-3 ft. G., 3-4 ft. G.

	Each
2-3 ft., 1 year Graft, B&B.....	\$ 7.50
3-4 ft., 1 year Graft, B&B.....	10.00
6-8 ft., 2 year Graft, B&B.....	12.50

MAGNOLIA Denudata Group. We believe that the Magnolia Denudata group is the best of the Magnolias. Flower very large, measuring 6 to 8 inches and opening flat like a saucer. Flower composed of 9 large, broad, roundish petals with color ranging from pure white to dark purplish red. Foliage very large and broad.

M. DENUDATA . . . Well known as M. Conspicua. Flower pure white. No stock available this season.

M. DENUDATA VAR. ELONGATA . . . One of the Denudata seedlings. Flower slightly larger than the parent variety. Mostly pure white, but occasionally showing a faint tinge of purplish pink at the base of the petals. Many years ago we secured this variety under the name of Denudata and have offered same to the trade for several years. Recently, however, we traced through an English horticulturist and author and found the discrepancy of names, which we wish to correct.

	Each
2-3 ft., 1 year Graft, B&B	\$ 5.00
3-4 ft., 1 year Graft, B&B	7.50
4-5 ft., 1 year Graft, B&B	10.00
5-6 ft., 2 year Graft, B&B	12.50

Magnolia Denudata Var. Elongata

M. DENUDATA PURPLIANA . . . One of the Denudata seedlings. Very attractive large flower, 9 petals, bright clear reddish purple. Temporarily

called Purpliana as we are not certain if it is the same as the Denudata Purpurascens in Europe. 3-4 ft., 4-5 ft.

LACY'S MAGNOLIA . . . Another seedling of Denudata showing typical features of the parent in its flower, foliage and habit of growth. Original plant came from France and now growing in the Lacy Estate in Central Louisiana. Produces the largest flower usually measuring 8 inches when full open. Color white with purplish pink at the base. 2-3 ft., 3-4 ft.

Prices on the above 2 varieties:	Each
2-3 ft., B&B.....	\$ 5.00
3-4 ft., B&B.....	6.50
4-5 ft., B&B.....	8.50

MAGNOLIA Soulangeana Group. This group is hybrids of M. Denudata and M. Liliflora. Tree shape in growth, but does not grow as large as the Denudatas.

M. SOULANGEANA . . . Most popular variety in the United States and Europe because of its hardiness and profusion of blooms. Flower 6 inches across with 9 petals and somewhat of lily shape that opens into a saucer form. Color ranges from nearly white to dark purplish pink. Foliage small and narrow in comparison with most other varieties. 2-3 ft. to 4-5 ft.

M. ALEXANDRINA . . . A hybrid that is more vigorous than the Soulangeana. Flower larger, 9 petals, color of most blooms dark purplish pink and white on the inside of petals. Blooms at our nursery two weeks later than Soulangeana and usually escapes the danger of late freezes. Foliage larger than Soulangeana. There are several varieties called Alexandrina today; we obtained this variety from several nurseries and the flowers differ. The stock we are offering was propagated from a plant that was imported from France years ago and is now growing in Evergreen, Louisiana. It was recommended to us under the name of Alexandrina by the late Mrs. Dan DeBaillon of Lafayette, La., who was an authority on Magnolias. There is another very attractive Magnolia with much whiter blooms called Alexandrina Alba.

Prices on the above two varieties:

	Each	10
12-18 in. C.T.....	\$.60	\$ 4.50
18-24 in. C.T.....	.75	6.00
2-3 ft., B&B.....	3.00	
3-4 ft., B&B.....	4.00	
4-5 ft., B&B.....	5.00	

M. NIGRA . . . Hybrid predominated with characteristics of Liliflora. Flower lily shaped with 6 petals instead of the 9 petals found in most varieties of

this group. Color a rich dark purple outside and lighter purple inside the petals.

12-18 in. C.T.....	\$.50	\$ 4.00
18-24 in. C.T.....	.60	5.00
2-3 ft., B&B.....	2.50	
3-4 ft., B&B.....	3.50	
4-5 ft., B&B.....	4.50	

M. LENNEI . . . Flower large saucer shaped consisting of 9 large petals. Color very dark vermilion red or purple. Blooms two weeks later than Soulangeana.

M. RUSTICA RUBRA . . . Large cup shaped deep purplish red flower of 9 large petals. Similar to Lennei with large leaves and tree type.

M. SOULANGEANA ALBA SUPERBA . . . Closely resembles Soulangeana, but has more white coloring and rounder leaves. 2-3 ft., Graft.

Prices on the above varieties:	Each
2-3 ft., B&B.....	\$ 4.00
3-4 ft., B&B.....	5.00
2-3 ft., Graft.....	5.00

MAGNOLIA Liliflora Group.

M. LILIFLORA . . . A very common variety found in the southern garden. Grows in bush form with many stems from the ground. Flower small with 6 petals, deep purple outside and white inside of petals.

	Each
2-3 ft., B&B.....	\$ 2.50
3-4 ft., B&B.....	3.50

M. LENNEI HYBRID . . . Hybrid of M. Lennei and Liliflora. Flower lily shape, slightly larger than Liliflora. Has 9 petals, the outside of which is dark purple and inside white. Blooms couple weeks later than the other varieties. Growth bush type similar to Liliflora.

M. DARKEST PURPLE . . . True name and origin unknown, but likely a hybrid of M. Liliflora, which it resembles in growth and foliage. Flower has 9 petals which are narrow and long and of a very rich purple color. Very rare variety.

Prices on the above 2 varieties:	Each
2-3 ft., B&B.....	\$ 3.00
3-4 ft., B&B.....	4.50

MAGNOLIA STELLATA . . . Commonly known as Star Magnolia. Compact and spreading growth. Small narrow leaves. Flower small and delicate with 12 to 18 narrow petals usually white. Useful in the landscape of a small garden and a very charming sight in the spring among camellias and azaleas. There is also a pink flowered variety Stellata Rosea and also another of the water lily type. Not available this season.

Flowering Cherries

Japanese flowering cherry trees are fast becoming one of the most popular blooming trees. With its profuse flowers and deciduous foliage it makes a splendid avenue tree or individual specimen. Until recently it was believed that these plants would not grow successfully down South. It has been proven otherwise by the use of acclimated stock and proper propagation.

TAIWAN (*Prunus Campanulata*) . . . Winter-blooming cherry, usually blooms in our nursery during the latter part of January. Flower single, small and bell shaped. When in bloom every branch is covered with brilliant rosy red flowers. Thrives best in warm regions.

6-8 ft., B.R. Graft.....	\$2.50 Each
8-10 ft., B.R. Graft.....	4.00 Each

SHIDARE-HEGAN (*Weeping Cherry*) . . . Flower single, small, pale pink in color. Produces blossoms abundantly before the leaves appear and covers every branch and twig. Not available this season.

OSHIMA (*Prunus Lannesiana* or *P. Serrulata*) . . . Large single white flowers that precede the Yoshino cherry by two weeks. Vigorous grower with large leaves and stout branches. Produces an abundance of fruit about the size of blue-berries. Thrives in warm climates.

SOMEI-YOSHINO (*Prunus Yedoensis*) . . . This is the popular variety planted in Potomac Park Basin in Washington, D. C. Flower single, medium size with several forming a cluster. Pinkish white in color turning darker pink. Grows into a large sized tree with spreading branches, highly recommended for planting in large estates, river banks, avenues and parks.

Prices on the above 2 varieties:	Each
2-3 ft., B.R.	\$ 1.00
3-4 ft., B.R.	1.25

FUGENZO (*James H. Veitch, Prunus Serrulata*)

KWANZAN (*Prunus Serrulata*) . . . Both of these varieties produce large double pink flowers usually during the early part of April in this locality. Very showy and outstanding varieties. Grows slowly with stocky branches.

SHIROTAE (*Prunus Serrulata*) . . . Also called Mt. Fuji. Flower large single to semi-double becoming more double as the tree gets older. One of the best white cherries resembling Fugenzo in its habit of growth.

NADEN (*Prunus Seiboldii*) . . . A fine variety of Takasago cherry (*Prunus Seiboldii*). Flower semi-double

to double borne in clusters. Color light pink and turning to a deeper shade when fully matured.

Prices on above 4 varieties:		Each
2-3 ft., B.R.	\$ 1.25
3-4 ft., B.R.	1.50
